Find name of all persons who do not work for the "Acme" company.

\[
\text{answer} = \prod_{\text{person-name}} \left( \bigcap_{\text{comp-name} \neq \text{"Acme"}} (\text{works}) \right)
\]

Or:

\[
H_1 = \prod_{\text{person-name}} \left( \bigcap_{\text{comp-name} = \text{"Acme"}} (\text{works}) \right)
\]

\[
\text{(all "Acme" employees)}
\]

\[
\text{answer} = \prod_{\text{person-name}} (\text{works}) - H_1
\]

(Kind of a give-away question)
