This will be an “in-class” assignment. On Thursday, September 7 we will meet in the computer lab, MSC E308 during our usual class meeting time, 10:00–11:15 AM. We will cover material in Chapter 1, *Getting Started with MATLAB*. By the end of the class, you should write down (neatly and well organized) answers to the questions in problems:

1.2.1 (page 6)
1.3.1 (page 8)
1.3.2 (page 8)
1.3.4 (page 8)
1.3.9 (page 13)

Your solutions should be turned into me at the end of class.

You should read through Chapter 1 before Thursday, September 7.
