Math 351, Partial Differential Equations
Spring, 2017

Professor .... James Nagy
Office ............ E426 MSC
Office hours ... T,Th 10:00–11:00

Text book: Partial Differential Equations: An Introduction to Theory and Applications,
by M. Shearer and R. Levy
Material: Chapters 1–8

Course Policies

Grades. There will be 2 tests, a final exam, and 11 quizzes.
The final grade will be determined as:

40% Tests 40% Final Exam 20% Quizzes

Quizzes. There will be 11 quizzes, usually given on Thursdays. The two lowest quiz scores will be dropped.

Tests. There will be 2 tests on the following dates:

Thursday, February 16, Thursday, April 6

Final Exam. The Final Exam is cumulative, and will be given on Thursday, April 27, 3:00–5:30.

Technology. You are welcome to use any technology and resources to work on practice homework problems, but keep in mind that you will not be allowed to use any technology for quizzes and exams.

Homework. No homework will be collected in this class.
However, I will be providing a list of suggest problems for each section we cover. You are strongly recommended to do all of these problems. You may work together on the problems, have a conference to discuss class material, etc.

Make-up Tests and Quizzes. Make-up tests will be given only in extreme cases.
There will be no make-up quizzes. If you miss one, then it is one of the two that you drop.

Class Attendance. Attendance is not required, but strongly encouraged.
If you miss a class, then you should get a copy of the notes from one of your classmates. If you come to class, then I expect you to arrive on time and that you will stay until the end, and not leave in the middle of a lecture. Breaks should not be needed to go to the bathroom, to answer your cell phone, etc. If such a break is needed, I expect an explanation.

Honor Code. All students must adhere to the provisions of the Honor Code. For more information, see:

http://catalog.college.emory.edu/academic/policies-regulations/honor-code.html
