Math 111 Section 4, Fall 2018
MWF 9:00a.m., Mathematics and Science Center, E208

Instructor:  Warren Shull
Office:  N402
Hours: Tu 10:30-12:00, Th 12:00-1:30, or by appointment
Email:  wshull@emory.edu
Password:  Last 8 digits of π

Textbook
Stewart, Single Variable Calculus Early Transcendentals, 8/e (ISBN 978-1-305-27033-6)

Course Goal
The goal of this course is to introduce students to the fundamental concepts of Calculus, namely limits, differentiation and integration. We will take a problem-solving approach to learning with an eye toward applications. The sections from the text which will be covered are:

§1.1–1.5, 2.1–2.3, 2.5–2.8, 3.1–3.8, 4.1–4.5, 4.7, 4.9, 5.1–5.5, 6.1, 6.2, & 6.5

Grading Scheme
• Exams (3 midterms, Total: 50%)
  – Exam 1: Wednesday, September 26
  – Exam 2: Wednesday, October 24
  – Exam 3: Monday, November 19
• Cumulative Final Exam (30%): Monday, December 17, 11:30a.m.-2:00p.m.
• Quizzes and homework (20%)

Exams
• The exams dates listed above (other than the final) are tentative and are subject to change. Students will be notified at least a week prior to any changes made.
• During an exam, no one will be permitted to leave the classroom once exams have started before handing in their exam for any reason. Please use the restroom before starting.
• If you know that you will have to miss an exam in advance, due to illness or a university-sanctioned off-campus commitment, you must contact the course instructor before the exam. You must also obtain valid documentation from the Office for Undergraduate Education. Excuses such as travel for other reasons, non-Emory exams, etc., are not valid reasons for missing exams. Unexcused absences will be treated as 0’s. For more information, please see the section Incompletes and Absences at:
  http://catalog.college.emory.edu/academic/policies-regulations/incomplete-absence.html

THE FINAL EXAM DATE IS FIXED AND CANNOT BE CHANGED. I AM NOT ALLOWED TO GIVE THE FINAL EXAM ANY DAY OR TIME OTHER THAN THE ONE LISTED ABOVE. DO NOT BOOK TRAVEL PLANS THAT WILL CAUSE YOU TO MISS THAT DAY!
Homework and Quizzes

For each section, a number of problems will be given to you to practice. While most of these will not be for a grade, I reserve the right to give occasional graded homework assignments. Approximately once a week (except during breaks or exam weeks) a quiz will be given based on recent homework. Quizzes will be given during the last 10-15 minutes of class and will consist of 2-3 problems. Throughout the duration of the course, there will be 10-11 such quizzes and the lowest 2 quiz grades will be dropped. This will account for unforeseen absences for whatever reason, and as such makeup quizzes will NEVER be given.

Calculator Policy

The quizzes and tests in this course are designed specifically so that no calculator is necessary. Therefore no calculators of any kind will be permitted on quizzes or exams. In all cases, your work must be fully explained in order to receive full credit. Remember, I am not looking for correct answers, I am looking for correct thinking!

Help Sessions

Free tutoring is offered to Math 111 students. Help sessions are Tu, W & Th from 5:30pm - 7:30pm in MSC W301. Also, Emory College provides free individualized peer-tutoring through EPASS. More information is available at http://college.emory.edu/oue/student-support/epass/tutoring.html Please consider using these valuable resources.

Disruptions

Disruptions that interfere with other students’ ability to learn will not be tolerated. A student may be asked to leave the class or exam for disruptive behavior.

All cellphones, PDAs, laptops, and any other devices with internet, phone or messaging capabilities must be turned off and put away at the beginning of each class.

Honor Code

All students must adhere to the provisions of the Honor Code. See the following:

http://catalog.college.emory.edu/academic/policies-regulations/honor-code.html

Accessibility

The Department of Mathematics at Emory supports equal access for students with disabilities. Any students needing special accommodations due to a disability should speak with someone in the Office of Accessibility Services and arrangements will be made. Accommodations cannot be applied retroactively, so please see me to discuss arrangements as soon as possible and at least two class periods (4 or 5 days) before the exam (the date of exams will always be confirmed at least a week in advance).
